

Our component design system provides mail center productivity, flexibility and optimum space utilization

Adjustable shelf sorters offer counter or wall mounting. Console cabinets provide a range of storage configurations for mail and shipping supplies.

This mail center design reflects the functional efficiency of our fully adjustable mail sorting shelves and aluminum framed consoles. Locked together to create a continuous working counter, the consoles combine the made-to-measure appearance of expensive millwork with the design flexibility, durability, cost-effectiveness and quick delivery of our modular components.
