

Key Points of our Nurse's Stations

- ***Unique modular construction is cost-effective without limiting design and material creativity of the architect/designer***
- ***Modular construction provides rapid installation with minimal on-site disruption***
- ***Modular construction allows easy expansion or reconfiguration***
- ***Our modular construction system can accommodate most architects' designs, straight or curved***
- ***CAD/CAM factory production ensures precise quality control and CAD drawings are archived for future expansion or replacement of parts***
- ***Unlike millwork, modular furniture construction can be depreciated in 7 years***
- ***Wide range of modular chart and forms organizers***
